

Magnesium Gluconate

ITEMS	STANDARD
Description	white powder or granules
Identification	meets the requirements
Organic volatile impurities	meets the requirements
Reducing substances, %	1.0max
Water, %	3.0-12.0
Chloride, %	0.05max
Sulfate, %	0.05max
Assay, %	98.0-102.0
Heavy metals, %	0.002max
PH	6.0-7.8
Conclusion Compiles with the requirements of USP28Ed	

Chemical Name: Magnesium Gluconate;

Molecular Formula:

Molecular Weight: 414.60 Anhydrous or 450.63 Dehydrate

CAS No: 3632-91-5(59625-89-7)

Specification: USP/FCC

Characters: white / off-white powder

Application: Nutrient; Dietary Supplement; Pharmaceuticals

Package: 25kg/Drum.
